The SCCC Monthly Meetings alternate between the Caloundra and Buderim venues. In Caloundra the meeting is held on the first Saturday of the month and in Buderim the meeting is held on the first Thursday of the alternate month.
The next Monthly Meeting will be held at Caloundra 6 December 2014

From The Editor – Judy Smith

Bits'N'Bytes is produced monthly from February to December each year.

Contributions for the newsletter are always welcome. Please send copy for the next issue to reach the editor as early as possible after the monthly meeting or by the deadline: 20 January 2015.

Email: editor@sccc.org.au or Snail Mail: The Editor PO Box 384, Caloundra, Qld 4551.

This magazine is created with OpenOffice and produced in printed form and also electronically in PDF format.

Copyright - material in this newsletter may be copied in other publications provided that copyright rests with the Sunshine Coast Computer Club Inc., This permission is on condition that reference is made to SCCC (with original published date) in the reprinted item.

Liability - Although articles in this newsletter are checked for content, no warranty can be given for any loss resulting from the use of material in the newsletter. Articles and advertisements are printed in good faith and views and opinions are not necessarily those held by the club.

SCCC Privacy Statement - In joining the Sunshine Coast Computer Club please note that it is a club operated by volunteer members and operating within the community involving many activities relating to meetings, instructional and social functions for members and at times visitors.

This requires the keeping of a member data base and the publication of the names of new members. The Club guards the member data base as best as possible and does not publish member's addresses nor telephone numbers unless authorised.

At times photographs are taken at meetings and functions and are sometimes published. Should you have any problems relating to your personal privacy which arises or is likely to arise, it is your duty and responsibility to advise the Club secretary in writing of the circumstances and requirements.

What's on Bulletin - What's On Bulletins are sent once a week, generally on a Monday afternoon, to all members who have provided the Club with their email address. These bulletins give details of up-coming tutorials and topics to be covered at the various meeting venues. You will also find items of interest and club announcements in these bulletins.

Membership Cards

Membership cards for those members who have joined or renewed their membership are now posted to the member's address after 20th of each month.

Members who joined or renewed their membership between 21st October 2014 and 20th November 2014 were posted their membership cards on 27th November 2014 to the address recorded on the Club Data Base

Note - Membership cards show the next renewal date of membership.

Notice To Members

The SCCC Inc. education centre networks are provided as a club service. Downloading of any material that may be in violation of copyright, movies, music or books etc or pornography is not allowed under the club terms of use of this service.

Members sign an agreement with the club that they understand this when they sign in. A notice to this effect is placed at the top of the sign-in sheet.

All members sign this sheet on entry to club activities.

Next SCCC Monthly Meeting

will be held at Caloundra

Saturday 6 December 2014

Minutes of the Monthly General Meeting of the Sunshine Coast Computer Club Inc. Held at Goodlife Centre Buderim Thursday 6 November 2014

Meeting Commenced: – Heather Atkinson opened the meeting at 2.55 pm.

Minutes of the Previous Meeting:
The minutes of the October 2014 Monthly Meeting as published in the November 2014 edition of Bits'N'Bytes were shown on the screen.

Business arising from the minutes of the Previous Meeting:
Community Hall Caloundra – Heather informed the meeting that the Hall was now being used by the Caloundra Boxing Club and by both Clubs working together the Computer Club will be remaining at the Hall.

A motion by Mert Weston that the minutes be accepted was Seconded by Nevil Eyre.

CARRIED

Treasurer's Report:
The Treasurers Report for the period 21 September 2014 to 20 October 2014 as shown on the screen was published in the November 2014 edition of Bits'N'Bytes.

Heather said the only extra purchase this month was a new computer for the Administration. Other items are usual expenses but the purchase of the computer shows the Club spending more than received.

Heather proposed that the Treasurers Report be accepted and this was Seconded by Julian Chester.

CARRIED

New Members:
Roger Dart, Mavis Hill, Bill Irvine, David Reeve, Angela Shillig.
Derek Hooper (from Buzz A Geek) joined as a Corporate Member.

General Business:
A member raised the question about what happens if the Hidden Number in the Bits'N'Bytes is not claimed. Heather informed that unfortunately the prize did not jackpot.

Heather reminded members of the breaks being taken by the Club over the Christmas New Year period.

Meeting closed at 3.05 pm.

Minute Taker

Ebay Mania Part 2 - Linda Land

Thought I'd tell you about a site I've recently found out about myself. It's called auction sniper, and its free to join. It allows you to bid on items at the last moment, (which I do anyway, but you have to have nerves of steel, and be in front of your computer when the auction ends).

After you join up, it is very simple to use, as auction sniper already knows what you are watching and/or bidding on. It is just a matter of ticking a box to say you want to use auction sniper on that item, and the highest price you are willing to go to, and they do the rest.

They bid in the last closing seconds of the auction, and if you are the highest bidder, you win, if not, it was more than you were willing to pay anyway. It stops bidding wars, which sometimes makes an item go up to more than it is worth (I once sold a bit of lace for over $70.00, because two ladies were both determined to get it, and ego won over common sense!)

This was very good for me as a seller, but I certainly do not want to be in the same position as a buyer. I like to keep my hand close to my chest, and as there are a lot of people who do not put in the top amount they are willing to pay, when you bid at the last moment, they do not have enough time to re-bid, so often you get your item for less than you imagined.

It's just like a live auction really, nobody knows what anybody else is willing to go to, but unlike a live auction, which can go on until all bidding stops, eBay has a set time limit, after which you can't bid again, so it relies more on tactics.

Anyway, getting back to the benefits of using auction sniper, even if you enjoy the rush of the bidding process yourself, sometimes you just cannot be around when the auction ends, or it ends in the middle of the night, so it makes sense to use these facilities, and it is very economical, with the least cost being around 25cents an auction, and only if you win. You pay nothing if you lose. The max. you can pay is US$9.95, but that is for very expensive items, like cars etc. If you are interested, check it out at www.auctionsniper.com

When you log into eBay, you can put an item you are looking for, in a search box, and a list of relevant items appear, On the left hand side of your screen is another list with certain things you can tick, to make your search easier.

If you tick the "worldwide" box, many more items appear in you list of available items, giving you much more choice, and often, even taking into account the exchange rate, and higher postage costs, you will get a

better deal by buying overseas, especially from America. I do not often buy from the UK, for some reason it usually works out much more expensive.

The same rules of safety apply when you are buying from overseas, always check FEEDBACK! If someone seems the least bit dodgy, do not buy from them, stick with the well established sellers, and read what other buyers are saying about them.

Sometimes sellers have a few 1684 negatives showing up, but when you see the volume of items they are selling, it is only natural they will have a few unhappy customers, you cannot please all of the people, all of the time!! Just use your judgement, do not send money by Western Union, stick with Paypal for overseas purchases, and have a go!

Please Note

See Page 7 for details of Christmas Afternoon and Morning tea at Buderim and Caloundra venues.

For catering purposes please make sure your name is on the appropriate list if you will be attending.

Jean's Jottings

OpenOffice Calc - Customise Toolbar – Add Extra Icons

It is possible to add extra icons to the tool bar for any of the parts of OpenOffice e.g.

Writer, Calc, Presentation, Draw.   The explanation below shows how this is done in a Calc document.

There are a number of icons that are frequently used displayed on the toolbar which provide a quicker method of carrying out an action (by one click on the icon) instead of clicking on the names at the top of the tool bars and from the Drop down choose the name of the action required and clicking on that word. For example for particular work on a spreadsheet it may be necessary to fill the same data in a number of rows. If this is done by returning regularly to the file names on the tool bar and Click on Edit and from the drop down under Edit click Fill > and from the side bar choose to click on either Down, Right, Up, Left, Sheet, Series to repeat the information in a number of rows having already typed into the cell he date (or other) and highlighting the rows to repeat the information in.

It could be easier and time saving if a click on an icon on the toolbar would do this. Icons can be added to the tool bar to help with the work being done.

At the end of tool bar click there is a block with a down arrow. Click on the arrow to show Visible Buttons (with a side menu) Customise Toolbar and other items. Click on Customise toolbar to bring up a Customise window.

With OpenOffice Calc Toolbars– Toolbar showing 'Formatting' -

Click on add at right of page to bring up Customise window.

Click on 'Add' to the right of this window to open the 'Add Commands' window.

In the category list click on Edit - this shows the list of commands relating to edit.

Go down this list and find 'Fill Down' highlight and then click on 'Add' and close the Add Commands window.

This adds Fill Down to the list of 'Toolbar Content Commands'.

Click OK at the bottom of the Customise window to close the Customise window.

Further icons may be added by repeating the above actions.

Letter to The Editor

To the Editor,

Bits'N'Bytes

My wife. Lyn, and I wish to express our gratitude and appreciation for the generosity of members of our Club who have contributed IT equipment for the use of the children and carers at an orphanage and monastery in Yangon, Myanmar – what used to be called Rangoon, Burma - the Sunrise Home

http://www.myanmarorphanage.com/

Earlier this year Marie and Jim McGregor and Hermine Kuepper gave us Notebooks and tablets, and recently John Elliott gave us a Tablet to bring to Myanmar when we visit in March next year.
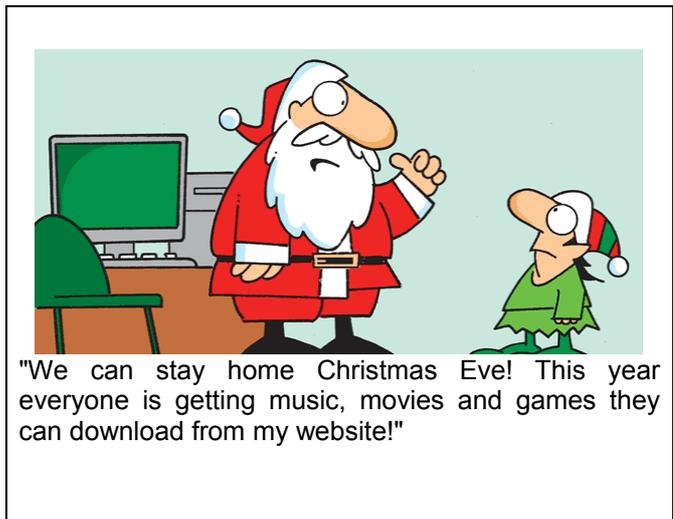

These articles go a long way in helping the Burmese children keep up with the modern world, and we are touched by the kindness of our members.

3 November 2014

The Committee of he Sunshine Coast Computer Club Inc. Wishes All Members A Merry Christmas & Safe & Happy New Year

"We can stay home Christmas Eve! This year everyone is getting music, movies and games they can download from my website!"

SCCC Christmas 2014

Christmas Break Up Days at Caloundra and Buderim 2014

Club activities will cease over the Christmas and New Year period.

Morning and Afternoon teas on the last meeting day for 2014 will be catered for. To enable catering arrangements to be made members must indicate whether they will be attending these meetings.

These meetings will be held at the usual meeting places:

Buderim on Thursday 11 December 2014 (List closes Thursday 4 December 2014).

Caloundra on Saturday 13 December 2014 (List closes Saturday 6 December 2014).

Please Note: Attendance is restricted to members only.

Usual entry fee of four dollars will apply.

The caterers need to know the number of members that will be attending. Separate lists are available at the Buderim and Caloundra venues for members to indicate that they will be attending.

Please take care when entering your name on the list that you are entering on the correct list and that you have not previously entered your name on the list.

** Please Note Lists will close:

Buderim -   Thursday 4 December 2014.

Caloundra – Saturday 6 December2014.

Members unable to attend a meeting to register their name may:

- Telephone the Club Information Line 5492 1005 (leave a message if the call is not answered)

    or

- e- mail Jean Lear at sccc@internode.on.net

Please ensure that if you wish to attend that you put your name on the list but if you have occasion to change your mind let the Club know.

Accurate attendance figures are required for the Caterers

Note – There is no December 2013 meeting at Yandina.

Happy Holidays

Website and blog plugins found to contain CryptoPHP malware: Alert Priority Low

Thousands of plugins and themes for popular blog and website platforms, including WordPress, Joomla and Drupal, have been found to contain malware called CryptoPHP.

People use WordPress, Joomla and Drupal to create blogs or websites. They then download plugins from online stores provided by the platform owner, or from third-party websites, to add custom features such as calendars and comment sections. They can also download themes from stores or websites to change the colour scheme or layout of their blog or website.

Only install and use plugins and themes from reputable sources.

Malware used to target password management tools: Alert Priority High

Researchers have discovered that a well-known type of malware has been used to target password management tools.

Password management tools are an inevitable target for criminals because they hold a list of all your usernames and passwords, and many can also store credit card information and other personal details used for online shopping.

With information all stored in one place, it makes password management tools a potential single point of weakness. If it is compromised, so are all the accounts you have stored in it.

Bits and Pieces

A VIRUS is going around called Housework

If you feel the need to start housework, stop immediately.

This virus wipes out your social life and "me time".

If you should come in contact with housework go straight to the nearest store & buy the only known antidote, which is called CHOCOLATE.

Please forward this warning to your friends immediately. If you realise you have no friends you are already infected..

Computer Trivia

1. **It took the radio 38 years** and the television only 13, but the internet reached 50 million users in only 4 years.

2. **The computer mouse** was invented by Doug Engelbart in 1963. It was made out of wood.

3. **In 2009 the average number of Internet transactions** per second was 2,000. The total number of goods sold was worth $60 billion.

4. **Early hard disks** in personal computers held only 20 MB of data and cost around $800. In 2010 you could get a 2 GB flash drive for around $8. This implies that there is a 100-fold reduction in the price and a 100-fold increase in storage capacity.

5. **Rear Admiral Grace Hopper**, the first female admiral in the US Navy is also known in the computer world for creating the popular programming language COBOL. She also came up with the term 'debugging' after removing a moth from a computer.

6. **The computing power in today's cell phones** is much higher than the processing power of all the computers in the Apollo 11 Lunar Lander that put 2 men on the moon.

7. **The two main components in IT** (Information Technology) are hardware and software. But there is also a lesser known 'grey' component. This is the software that is stored in hardware and cannot be modified easily. It is known as 'firmware'.

8. **There are over 20 billion web pages** on the internet, and that number is rapidly growing every day. Also, there are over 2 billion internet users worldwide at present.

9. **RIM** (the BlackBerry operating system company) co-CEO and co-founder Mike Lazaridis dropped out of college to start his own company. He did so after reading Microsoft's founder, Bill Gates', book.

10. **The first hard disk drive** was created in 1979 by Seagate. Its capacity was a whopping (not) 5 MB.

HP, Google, Microsoft, and Apple have one thing in common – apart from the obvious that they are IT companies. They were all started in garages.

12. **The 12 engineers at IBM** that developed the IBM PC had a code name – "The Dirty Dozen".

13. **The first and still the oldest domain name** to be registered is Symbolics.com, it was created on March 15th, 1985.

Kogan's sub-$300 4G smartphone given the plus treatment with new model

Reviewed by Gadget Guy 26/11/14

Earlier this year, Kogan and BenQ partnered for a 4G phone that hit under the $300 mark and provided good value, but it's not done, with an improved edition on the way.

If you've been considering Kogan's Agora 4G because it brings high speeds and a 5 inch HD screen to the sub-$300 price bracket, you now have a reason to consider its brother, which will be here shortly.

Announced this week, Kogan will be adding to the range with a bit of a plus. That is, the Aussie e-tailer will be introducing the 4G+, <u>a slight revamp to the Agora 4G with practically identical specs</u>, but some more memory, storage, and a better camera

HTC's 13 megapixel photography phone landing in Australia shortly.

Reviewed by Gadget Guy18/11/2014

Like taking pictures? Like taking selfies? If you checked yes on both of those, HTC's next phone might be for you, and as luck would have it, you'll even find it on shelves soon enough, too.

Australians sure are spoiled for choice when it comes to smartphones, and those of you that dig a selfie or two will have a new model to look at shortly sporting a 13 megapixel camera on each side — yes, front and back — of the smartphone.

It's called the "Eye" because this one is all about pictures, and with dual 13 megapixel cameras with a flash on each side, hopes to really make a mark on people who can't live without taking photos and sharing them with the world.

Lenovo's thin and light Yoga 3 Pro reviewed.

Reviewed by Gadget Guy 27/11/2014

Tablets may well be taking over the computer space, but there are plenty of people out there who prefer a laptop, they just want them thinner and lighter. Fortunately, companies like Lenovo are listening, and have found a balance with the Yoga 3 Pro.

Features

Lenovo's latest computer is here, and if you need a new machine and like them slim and light, this could well be the laptop you're looking for.

This machine relies on a 13 inch form-factor and takes advantage of a 13.3 inch display, relying on the same 3200×1800 QHD resolution used by the Yoga 2 Pro, which is higher than the Full HD displays many laptops use, and much higher than the 1366×768 HD resolution you still see on 11-15 inch laptops.

The display type is In-Plane Switching (IPS), suggesting good viewing angles, and a touch panel has also been integrated making it into a tablet, also.

Raffles

THE LAST SCCC RAFFLE WAS DRAWN SATURDAY 15 NOVEMBER 2014 CALOUNDRA using the Random Number Generator

The prize for this raffle was a Samsung Galaxy Tab3, 8.0inch, WXGA Super Clear LCD, 16GB WIFI tablet.

The lucky winner with ticket number 273 was Richard Mellor who bought the ticket at a Buderim meeting.

Congratulations Richard.

Thank you to the members who supported this raffle and to the members manning the desks and selling tickets in the raffle.

RAFFLE TO BE DRAWN SATURDAY 13 DECEMBER 2014 CALOUNDRA

This will be the Club's final Raffle for 2014.

The prize will be an eTouch Tablet with a 10.1 inch Touch Screen. With this is a Targus Ultrabook padded case to keep your tablet safe. take this home for Christmas and you will be able to surf the internet, read books and emagazines, watch movies, play android games and use Onboard eStreet Directory and more.

Read specifications at the meetings where tickets will be on sale to day of draw.

Tickets are $1 each and available at all Meeting venues.

Remember buying of tickets is voluntary.

RAFFLE TO START JANUARY 2015

Watch the Weekly Bulletin to be published on Monday 5 January 2015 for details of this Raffle.

Tickets will be $1 each and available at all Meeting venues commencing at Buderim on 8 January 2015.

Remember buying of tickets is voluntary.

Find Your Membership Number

Do you read your Bits'N'Bytes each month? Find your membership number hidden somewhere in one of the pages and win five free tickets in the current raffle.

The membership number will be chosen at random and will appear as a four digit number within the text of the magazine and may be on any page. If your membership number has 1, 2 or 3 digits, it will be shown with leading 0s.

Do not forget to thoroughly scrutinise every magazine for your membership number hidden within the text of articles each month.

The number is placed in the 8672 middle of a sentence like this!

Start looking now! The lucky membership number is hidden somewhere in this month's edition. Is it yours?

When you find your number contact the club by email at editor@sccc.org.au or phone 54921005 to claim your prize. You are allowed 60 days from the publication date to claim your prize. Otherwise, the prize is forfeited!
